Information about pilot project: 'Free Before and After School Clubs (SFO) for Year 1'

Free part-time places at SFO and more affordable full-time places

The Municipality of Bergen's City Council has decided to offer free part-time places (previously morning/afternoon places) at SFO for pupils in Year 1 at selected schools. The school which your child attends is one of the selected schools. This is a pilot project which will be carried out from 1 January 2022 until 30 June 2022.

Before and After School Clubs (SFO) are an extracurricular activity offered to children before and after the school day starts/ends. SFO is an important arena for learning and inclusion, and our aim is that as many children as possible attend SFO. The free service applies to reduced places and introduction places. All Year 1 pupils, who have already accepted a place at SFO in the autumn, will automatically be included in the pilot project. You do not have to reapply.

You will be billed for food money (NOK 280 per month).

Reduced price

Fees for those who already have a full-time place, will automatically be reduced during the pilot project to NOK 580 per month. This price amounts to the difference between a part-time and full-time place.

If the household's taxable income is less than NOK 350,000, you will still be entitled to a free full-time place provided that you have applied for reduced parental fees. [Apply for reduced parental fees here.](#)

Continuation

The pilot project will last until 30 June 2022. After this, you will be billed as normal from August. If you wish to terminate the place, please do so with effect from 1 June 2022.

Apply for a place at SFO

If you have not yet applied for a place at SFO, you can do so via the [Municipality of Bergen's website](#). You will then be automatically included in the pilot project. More information about SFO is also found on the website.

Best regards,

Marius Arnason Bøe
